PERFECT 2030 is an easy to use Calculating Time Recorder with a large display to provide simple programming.

The 2030 allows up to 104 IN/OUT punches per time card which means it can handle virtually any type of pay period.

A 6-digit barcode makes each time card unique, eliminating time card duplication.

The data security is guaranteed by means of an integrated Lithium battery.

Perfect 2030 can be delivered in desktop or wall mounted version.

Standard features of Perfect 2030

- γ Large employee capacity
- γ Calculate Regular Time
- γ Print Late Arrivals in Red
- γ Round IN/OUT Punches
- γ After Midnight IN/OUT punch
